

Jena Beaubien

Hair and beauty has always been a passion of mine since I was a little girl. I've always loved watching people getting their hair done. I knew it was what I was going to do when I grew up. I don't just do hair, I like to listen to what people want and talk about every option and give them exactly what they ask for. Doing hair is not my job, it is my passion. I love making people feel beautiful and good about themselves. I've had special training in different types of extensions. I specialize in many things; from color, women's cuts, men's cuts, Brazilian blow outs, extensions; bead, fusion, tape-in, bridal, prom updos. I love my career and am so thankful I get to work in such a beautiful place. Thank you for considering me as your provider for all your hair needs.
