

Brooke Williams

Brooke has always had a passion for the beauty industry and what it represents. She chose this career because she knew she could make a difference in people's lives.

Growing up with low self-esteem, Brooke knew first hand what it felt like to not have that confidence in your every day life. Today, the industry, trainings, and her salon team has helped shaped her into the confident, ambitious hairstylist that wakes up ready to make a difference with each person who sits in her chair.

Brooke loves keeping up with the latest trends and techniques. She has attended many continuing education classes throughout her career with Lanza, Paul Mitchell, Aveda, TIGI, Joico, and so many more!

Always striving to give each client the best experience with her honest expertise, knowledge, and professionalism.

When Brooke isn't at the salon, most likely you will find her at home, the gym, or spending time with her loved ones. Family is her everything.

"The beauty industry is so powerful. I want to inspire people. Give them confidence. Help them see the true beauty that they are. I'm so thankful for the opportunity to apply my experience, education, and love of this profession to give you an enjoyable and satisfying salon experience. "
